

# MultiMax System

The MultiMax Group Calf Raising System helps calves transition from individual systems to a manageable group environment

When calves raised individually are placed in large groups, the stress from competition and social pressure can lead to setbacks in growth and health. Placing 4 to 6 similarly sized weaned calves in a MultiMax is the best way to ease the transition. Continued growth and health will be attained as animals bond into a social group.

- Constructed of high molecular weight polyethylene that will not breakdown and deteriorate.
- Large entryway, for maximum ventilation.
- Extra hutch height – allow animals to stay in the unit longer.
- Treated lumber base, provides a stable and secure foundation.
- Ridge top ventilation for improved air circulation.

# Calf-Tel - We House Success

## The industry's #1 choice for calf housing, indoors or out

Calf-Tel calf housing systems use a unique thermoforming process along with the highest quality polyethylene plastic to achieve unmatched strength, durability and longevity. Calf-Tel family of products offers calf raisers around the world simply the best and most cost effective system for raising healthy calves.

Calf-Tel housing systems are the most economic and efficient available. Our systems will help you decrease labor, treatment and veterinarian costs.

**Treated Lumber Base**

**Large Entry Way**

## MultiMax Specifications

Dimensions	English	Metric
Outside	86.5" L x 107.5" W x 72" H	2197mm x 2730mm x 1829mm
Inside	82" L x 102" W x 71" H	2083mm x 2591mm x 1803mm
Weight w/base	235 lbs.	107 kg.

### Recommended Sites

*Three common ways the MultiMax is used.*

**Prepared site:** Place the MultiMax on a well drained surface (gravel, crushed stone, or sand). This will keep calves dry and healthy. Outside pen required.

**Rotating Site:** Place one MultiMax in a small pasture and move the unit and its pen periodically.

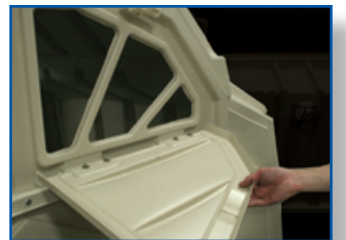

**Large Common Pasture:** Place multiple MultiMax's in a large pasture with bigger groups. Position the units near each other, as the herd will not separate to housing in different locations.

## 10 Year Limited Warranty!

At Hampel Corp., our products are built to last. We proudly stand behind our craftsmanship. Contact us for the complete details.

**High Molecular Weight Polyethylene**  
Extended life and durability - won't cold crack or break.

**Optional Rear Venting**  
For warmer climates, hot weather, or as an observation tool.

**Totally Opaque Material**  
Blocks the sun's UV rays providing cooler temperatures.

**Bio-security**  
Constructed of microbial-resistant materials, which means healthier calves.
